

NEW RECYCLING LAW COMING SOON

SB 1383: Short-lived Climate Pollutants – Organic Waste Reduction Bill

Beginning January 1, 2022, Californians will be required to recycle more of their organic waste. Here's what Vacaville customers can expect:

RESIDENTIAL

- › Expanded organics recycling program will accept more types of organic materials
- › Sorting labels will be deployed on carts
- › Additional resources to prevent food waste at home and in the community

COMMERCIAL

- › All businesses will be required to recycle organic waste
- › Employees must properly sort materials for recycling
- › Recycling bins featuring sorting labels will be required in customer areas
- › Some businesses will be required to participate in an Edible Food Recovery Program*

(*Businesses subject to Edible Food Recovery Program requirements will be notified directly)
